Gameplay

Claim your spot on The Floor by placing your tokens and picking categories that fit your style — Disney characters, tasty foods, epic band names, and more. Then it's duel time: two players face-off with 30 seconds on the clock. Take turns firing off answers while the seconds slip away... until one player runs out of time and the other conquers more of The Floor.

After three rounds it all comes down to the Final Showdown — where even the underdog can rise and take the crown.
