

# MEDICAL MYSTERIES

## Game description

*Medical Mysteries is a cooperative, story driven game series, based on the ever popular tv-show trend, with medical dramas like House, ER Grey's Anatomy and New Amsterdam. You are a group of medical specialists in charge of 4 patients with mysterious symptoms, on the brink of death. The only thing the patients have in common, is that their lives are in your hands.*

Work together as a team, discuss and spend your time-points wisely to:

1. Research: Do research on medical conditions, procedures and drugs.
2. Diagnose: Talk to the patients and run tests to uncover the causes of their mysterious symptoms.
3. Treat: Keep the patients alive by doing everything what it takes to help them.

Will your patients survive the night?

### Unique Selling Points

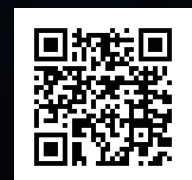

- A new, but logical step in experience-based games.
- A thrilling experience that makes you feel like real medical specialists.
- Players are more in control than ever. Through a 'Choose your own Adventure' system, there are many different outcomes and many different ways to get there.
- Created and tested with the help of medical specialists.
- No medical background needed to play the game
